Notes:

a) The Faculty groupings reflect the particular academic organizational structure at each university. Refer to the separately enclosed note "Academic Organization: Faculty" for amplification and clarification. The numerical references on this table relate to the differences as described in the aforementioned note which should be read in conjunction with this table.

b) In addition to their responsibilities for instruction and supervision of students, faculty members devote time to research and scholarship and to community service activities. The figures above comprehend total faculty activity as it is impossible to separate out the time devoted solely to instruction and supervision of students.

Note: Starting in 2003/04, international full-paying EETs are excluded from SFU.
